

Protection of Fairy pitta

Company	Oji Forest & Products
Area	Kochi, Japan (Koyagauchi company-owned forest)
Collaboration partners	Ecosystem Trust Society
Website	https://fairypitta.org/
Key words	Biodiversity conservation, OECM

Activity summary

Since August 2016, the Oji Group has been collaborating with the Ecosystem Trust Society on activities to protect the growing environment of the fairy pitta in the Koyagauchi company-owned forest in Kochi Prefecture. Our activities include supporting the construction of trails primarily for research purposes, exchanging views with local governments and stakeholders, and providing a venue for information dissemination.

In October 2023, we obtained and registered OECM certification through final certification under the system of the Ministry of Environment.
